„We can change the world and make it a better place.

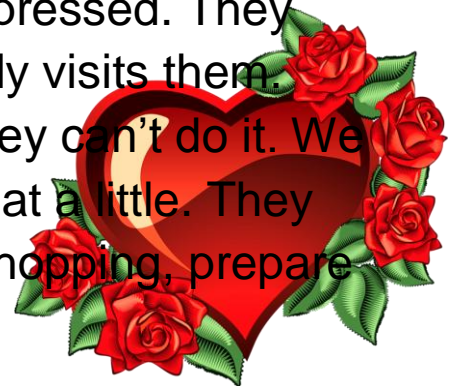

It's in your hands to make a difference”.

I think that our world can be a better place. It will be difficult to achieve but we can do it. We should only be creative and have a strong will. I have got some ideas.

Some parents are very poor. Before Christmas they are sad because they don't have money. They can't buy presents or food for Christmas Eve. We can help them. We can organize a party and collect money. Students can bring toys, sweets and food. Poor children will be very happy because they will have perfect Christmas.

There are many old people who are at hospitals or live at homes alone. They feel lonely and depressed. They don't have relatives or friends and nobody visits them. They need to talk about problems, but they can't do it. We can help them. We can visit them and chat a little. They are sometimes weak so we can do the shopping, prepare

food and clean the house. They will be grateful because they won't do things alone anymore.

I think that we must try to make the world a better place. It is possible for me so it should be possible for other people.
