

“WE CAN CHANGE THE
WORLD AND MAKE IT
A BETTER PLACE. IT IS
IN YOUR HANDS TO
MAKE A DIFFERENCE”

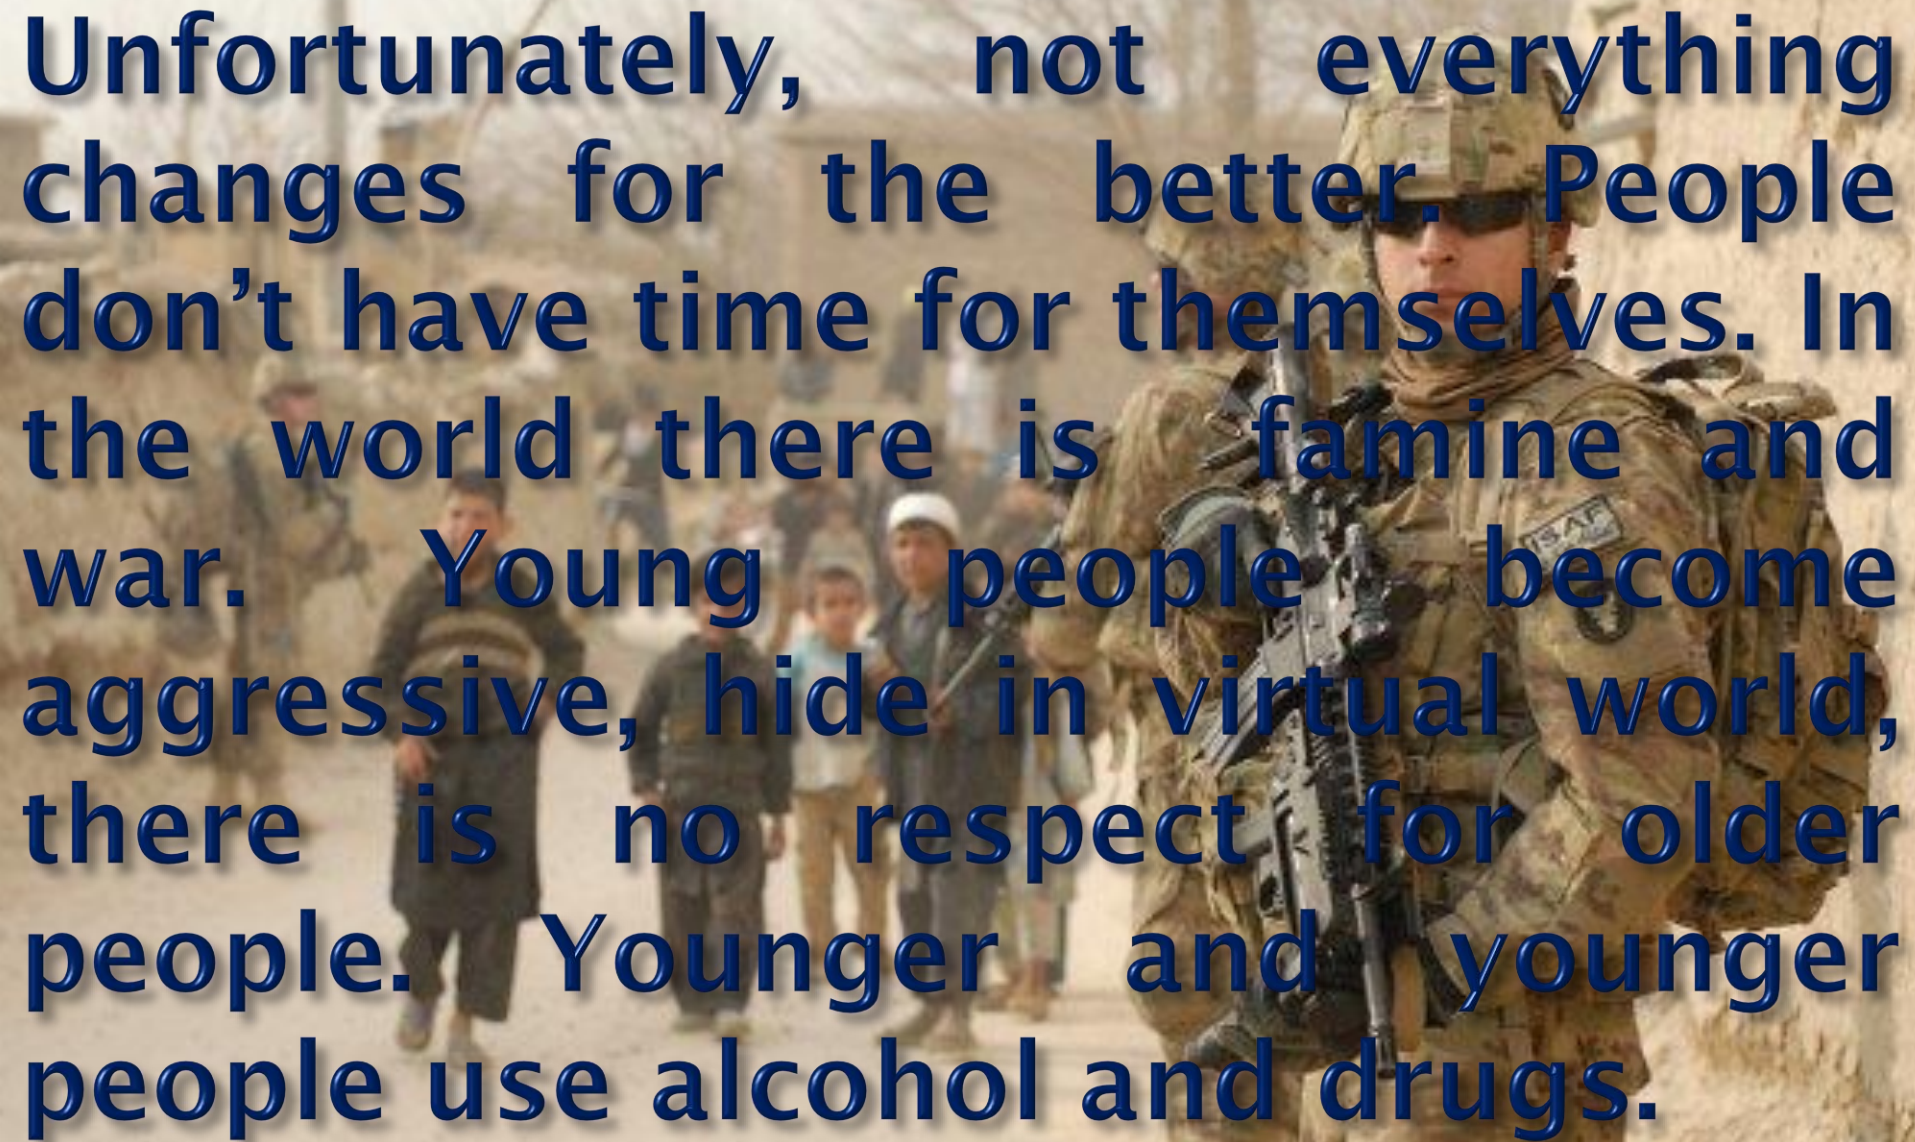

Nelson Mandela

The world is constantly changing.
When our parents were kids
computers or mobile phones
were unknown.

Now people have faster cars and better equipment. Thanks to new drugs and medical appliances we are able to treat many diseases and prolong life.

Unfortunately, not everything changes for the better. People don't have time for themselves. In the world there is famine and war. Young people become aggressive, hide in virtual world, there is no respect for older people. Younger and younger people use alcohol and drugs.

However, I believe that we can change the world for the better. We should only want. We need to organize our time well. Find a moment to learn, to work, but also have fun and meet with friends.

If we enjoy the small things we do, the world will be more beautiful. You have to be positively oriented to life. In all circumstances, find a good thing. If we help other people, they will always want us to come back. We can not be selfish. We need to make other people smile.

take a smile

(: (: (: (: (: (: (:

Even if we have little, we can give our time and support or simply a good word.

Everything is in our hands. We are young and we can shape our future. If we want to change the world for the better, we will change it into a beautiful place!

A woman with dark hair, wearing a white sleeveless top, is sitting on the ground in a vast, green field. She is facing away from the camera, looking towards the horizon. The sky is a clear, vibrant blue with several fluffy white clouds. The overall scene is bright and open.

THANKS

Thank you for your
attention!
